Introducing PowerCombo

www.demodeks.com

What is PowerCombo?

- ❑ The Ultimate Universal Security Device for handheld Consumer Electronic Products. The PowerCombo is an integrated mechanical and electronic security solution that secures the product while also supplying regulated power to connected devices for live display.
- ❑ The PowerCombo **Secures, Powers and Alarms** most handheld Consumer Electronic Products including **Cell Phones, Tablets, PDA's, MP3 Players, iPods, Portable GPS', eBooks and many more...**
- ❑ **NO MORE FALSE ALARMS!**

THE PowerCombo

Secured, Alarmed & Charged

About PowerCombo:

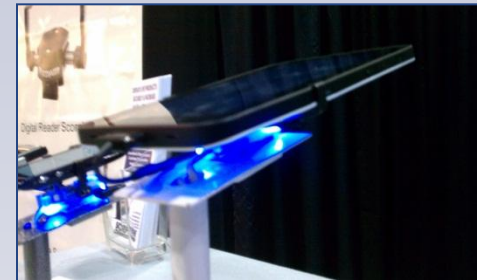

- ✓ Products are secured and powered by integrated Electronic & Mechanical Device
- ✓ Continuous powering of attached products for live customer presentation
- ✓ 2, 4, 8, or 16 Port Central Alarm Module controlled by on board RFID technology.
- ✓ Alarm module utilizes snap shot feature for connected products. When the system is set up all connected ports are alarmed, any empty ports are ignored, This eliminates the need for dummy plugs.
- ✓ Each Central Alarm Module comes with a Master Card for programming and User Cards for staff
- ✓ Staff cannot turn off the alarm with the user card, only silence the alarm volume
- ✓ Once alarm is triggered the system will repeat alarm every 30 seconds until the alarm event has been rectified (9sensor plugged in, product reconnected etc...)
- ✓ High Power LED's in the sensor head will illuminate and flash different colors to alert store staff in case of theft attempt
- ✓ Customized Pedestal Design available as optional extra

THE PowerCombo Secured, Alarmed & Charged

- Continuous Charging
- Phones, Tablets, GPS, etc.
- LED Lighting
- Alarmed
- Mechanically Secure
- Hi-Tech Central Alarm
- RFID operation

NO FALSE
ALARMS

PowerCombo Award at CTIA 2011

Technology Today TV awarded the PowerCombo First Place
“Techy Award” for the Most Outstanding New Technology
Product introduced at CTIA in 2011!

Easily Adapts to your Displays

- ❑ Keep your existing displays!
- ❑ The PowerCombo can **easily adapt** to a majority of merchandising environments - existing display stands
- ❑ PowerCombo sensors can easily attach to your current Display Pedestals or Counter Tops
- ❑ Since the Product is ***Mechanically Secured***, this will **eliminate false alarms** and theft from 'adhesives' used in many "other" electronic security systems
